<b>INFORMATION:</b>	<b>Manager</b>			

This Addendum No. 3 is issued for the TRAFFIC SCHOOL RFP No.SC07/005, which was issued on March 5, 2007.

**Questions received after bidders conference, prior to deadline of Requests for Clarifications or Modifications:**

**Q1:** Will the Courts Case Management system allow and accept a direct download from vendors administration site to accommodate electronic filing of home study certificates?

**A1:** Yes, the Court could program the case management system to electronically retrieve completion information and update CASP. As this would require programming on the case management system, it would not happen until sometime after July 2007.

**Q2:** Will the Court accept electronically transmitted information on a daily basis as opposed to a monthly basis in order to meet the due date requirements of each student?

A2: Yes, the Court would accept a transmission once a day.

Q3: Currently, all TVS (Classroom based traffic schools) are required to provide the student a three-part DMV certificate of completion in paper format. Does the Court anticipate receiving this data electronically as well? If so, in what format and how does the Court expect the CAP company to retrieve information with regards to the DMV certificate of completion when the CAP company does not have access to this information?

A3: Not at this time – the Court is only looking at home schools.
